IN CONGRESS, JULY 4, 1776

The unanimous Declaration of the thirteen united States of America.

When in the course of human events, it becomes necessary for one people to dissolve the political bands which have connected them with another, and to assume among the powers of the earth, the separate and equal station to which the Laws of Nature and of Nature's God entitle them, a decent respect to the opinions of mankind requires that they should declare the causes which impel them to the separation.

We hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain unalienable Rights, that among these are Life, Liberty and the pursuit of Happiness. — That to secure these rights, Governments are instituted among Men, deriving their just powers from the consent of the governed. — That whenever any Form of Government becomes destructive of these ends, the People have the Right to alter or to abolish it, and to institute new Government, laying its foundation on such Principles, and organizing its powers in such form, as to them shall seem most likely to effect their Safety and Happiness. Prudence indeed will dictate that Governments long established should not be changed for light and transient causes; and accordingly all experience hath shewn, that mankind are more disposed to suffer, while evils are sufferable, than to right themselves by abolishing the forms to which they are accustomed. But when a long train of abuses and usurpations, pursuing invariably the same Object, evinces a design to reduce them under absolute Despotism, it is their right, it is their duty, to throw off such Government, and to provide new Guards for their future security. — Such has been the patient sufferance of these Colonies, and such has now become the necessity which constrains them to alter their former Systems of Government. The history of the present King of Great Britain is a history of repeated injuries and usurpations, all having in direct object the establishment of an absolute Tyranny over these States. To prove this let Facts be submitted to a candid world.

He has refused his assent to Laws, the most wholesome and necessary for the public good. He has forbidden his Governors to pass Laws of immediate and pressing importance, unless secured by his assent, till his assent should be obtained, and when so secured, he has utterly neglected to attend to them. He has refused to pass other Laws for the accommodation of large districts of people, unless those people would relinquish the right of Representation in the Legislature, a right inestimable to them and formidable to tyrants only. He has called together legislative Bodies at places unusual, uncomfortable and distant from the depository of their public Records, for the sole purpose of fatiguing them into compliance with his measures. He has dissolved Representative Houses repeatedly, for opposing with manly firmness his invasions on the rights of the people. He has refused for a long time after such dissolutions, to cause others to be elected, whereby the Legislative Powers, incapable of Annihilation, have returned to the People at large, for their serious consideration of the most important and arduous concerns of the Colonies. He has endeavored to prevent the Population of these States, for that purpose obstructing the Laws for Naturalization of Foreigners, refusing to accept others to encourage their migrations hither, and raising the conditions of new Appropriations of Lands. He has obstructed the Administration of Justice by refusing his assent to Laws for establishing Judiciary powers. He has made Judges dependent on his Will alone, for the tenure of their Offices, and the amount and payment of their salaries. He has erected a multitude of New Offices, and sent hither swarms of Officers to harass our people, and eat out their substance. He has kept among us in times of peace Standing Armies, without the consent of our Legislature. He has affected to render the Military independent of and superior to the Civil power. He has combined with others to subject us to a jurisdiction foreign to our Constitution, and unacknowledged by our Laws; giving his assent to these Acts of pretended Legislation: — For quartering large bodies of armed troops among us: — For protecting them by a mock trial, from punishment for any Murders which they should commit on the Inhabitants of these States: — For cutting off our Trade with all parts of the world: — For imposing Taxes on us without our Consent: — For depriving us in many cases of the benefit of Trial by Jury: — For transporting us beyond Seas to be tried for pretended offences: — For abolishing the free System of English Laws in a neighbouring Province, establishing therein an arbitrary government, and enlarging its Boundaries so as to embrace it at once an example and fit instrument for introducing the same absolute rule into these Colonies: — For taking away our Charters, abolishing our most valuable Laws, and altering fundamentally the Forms of our Governments: — For suspending our own Legislatures, and declaring themselves sole Legislators for us in all cases whatsoever. He has abdicated Government here by declaring us out of the Protection and safeguard of the Laws. He has plundered our seas, burnt our towns, and destroyed the lives of our people. He is at this time transporting large Armies of foreign Mercenaries to augment the wretched crews of the British Fleets, and to maintain by a standing army, partly composed of the most barbarous and bloody mercenaries of every species, which they should commit on the Inhabitants of these States: — For cutting off our Trade with all parts of the world: — For imposing Taxes on us without our Consent: — For depriving us in many cases of the benefit of Trial by Jury: — For transporting us beyond Seas to be tried for pretended offences: — For abolishing the free System of English Laws in a neighbouring Province, establishing therein an arbitrary government, and enlarging its Boundaries so as to embrace it at once an example and fit instrument for introducing the same absolute rule into these Colonies: — For taking away our Charters, abolishing our most valuable Laws, and altering fundamentally the Forms of our Governments: — For suspending our own Legislatures, and declaring themselves sole Legislators for us in all cases whatsoever.

PRINCIPAL'S MESSAGE

This year's graduating class has a very special honor. You are graduating in 1976, the 200th anniversary of our nation's birth.

You have seen and heard much about "the Spirit of '76", but have you ever stopped to consider what that really means? What is that spirit which enabled our forefathers to sacrifice in order to establish our freedom and enables our fathers to sacrifice in order to preserve it?

You are America's spirit for the future. I sincerely hope that you have gained something from your experiences at Dadeville High School which will allow you to answer the above questions and make your spirit the "Spirit of '76".

This is a time to be proud of your heritage and a time to look forward to the great America that you, the seniors of 1976, can help preserve.

May God bless each of you.

Edwin S. Fuller

Principal

ORGANIZATIONS

Washington's Army retreated across New Jersey and it dwindled as it went, but by Christmas of 1776, the Americans were 8,000 strong. They crossed the Delaware, where the Hessians, camped at Trenton on the East Bank, were caught off guard, and 900 of them were captured.

1974 Homecoming Queen, Pam Morris, crowns Debbie Lester Homecoming Queen for 1975.

HOMEcoming 1975

The theme of this year's HOMEcoming was "'Spirit of '76'" and this year it was clearly shown that the students of Dadeville High School had the "'spirit.'" All week long students worked to decorate their homerooms and class floats to show their "'spirit.'" The winner of the homeroom contest was Mrs. Smith's 8C and the float competition was won by the Senior-Junior float.

Friday night during the halftime of the Dadeville-Ashland football game, Debbie Lester was crowned Homecoming Queen 1975 by Pam Morris, Homecoming Queen 1974. Though all of these happenings were exciting, none of them seemed to surpass the fact that the TIGERS defeated arch-rival Ashland 55-6.

George Whitfield was the most rousing preacher of the 18th century. Benjamin Franklin concluded that his sermons could be heard by 30,000 people. Whitfield drew such huge crowds with his dramatic speaking ability that a special building was erected for his preaching in Philadelphia.

MAKE SOMEDAY TODAY

Someday you'll want that perfect home of your own. And for putting down roots, Still Waters is the ideal locale. It's a complete residential resort community in the magnificent woodland setting on Lake Martin. Besides water sports there are inland activities too - golf, tennis, riding, and a private hunting preserve. While there are still beautiful homesites available, you can make "someday" today.

IN CONGRESS, JULY 4, 1776

The unanimous Declaration of the thirteen united States of America.

[illegible]

We therefore the Representatives of the united States of America in General Congress, Assembled appealing to the Supreme Judge of the world for the rectitude of our intentions do in the Name and by authority of the good People of these colonies publish and declare, That these United Colonies are, and of Right ought to be, Free and Independent States, that they are absolved from all Allegiance to the British Crown, and that all political connection between them and the State of Great Britain is and ought to be totally dissolved, and that as Free and Independent States they have full Power to levy War, conclude Peace, contract Alliances, establish Commerce, and to do all other Acts and Things which Independent States may of right do — And for the purposes of this Declaration, with a firm reliance on the protection of divine Providence, we mutually pledge to each other our Lives, our Fortunes and our sacred Honor
